THE WISE INVESTMENT

- Avoids obstacles thanks to the **high manoeuvrability of its patented wheels**
- **Optimised pool cleaning: V-Flex®** patented self-adjusting flexible turbine blades to capture large debris
- 3 interchangeable suction heads for a **better compatibility with the majority of filtration pumps**
- **Leaf canister included as standard**

Narrow suction head
For better suction at a lower flow rate; use with a variable-speed pump set on low.

Medium suction head
For use with the majority of suction pumps.

Wide suction head
Optimises suction at a higher flow rate; use with a variable-speed pump set on high.

V-Flex® patented technology features a turbine with flexible blades to capture large debris.
